NTPC had communicated to the Ministry of Power that the above provision contained in the Draft Policy of Orissa Government would make power costlier and would not be in the interest of all-round development of the power sector in the State as it would discourage much needed investment and would therefore, be detrimental to the overall development of the power sector. Accordingly, the matter has been taken up with the Government of Orissa *vide* this Ministry's letter dated 30.08.2005.
